

# ART CLUBS

WITH MRS. YOUNG

Hello there, I am Sherry Young, an accomplished visual artist and art teacher, now blessed to be part of the FIA family of educators. I am grateful for the opportunity to teach and inspire our students to imagine with all their minds, believe with all their hearts, and achieve with all their might. My classes are designed to enhance whole learning and personal development. Our projects are process-driven that allow the artist to develop their ideas and visual communication skills. More than anything, we like to have lots of fun!

## HEART

HEART Art Club is an after school club that meets on Tuesdays and Thursdays and is open to grades 2, 3, and 4. This is a great place to explore your personal interests in art and get some hands on experience with art tools and materials, providing one-on-one support for those students who are seeking a creative outlet. HEART Club will also get them to create something crazy and exciting, be inspired by a great artist, learn to draw something they have never tried before, use their hands to craft a work of art, and simply have fun in the process!

STEAM Art Club is a place for aspiring young artists, grades 5-8, to hone in on their skills, develop their techniques and portfolios, collaborate with other artists like themselves, and learn how to work together through group projects as well as individual works. STEAM encourages student inquiry, dialogue, and critical thinking. Monday & Wednesday.

## STEAM

We focus on the Elements of Art and the Principles of Design, how they work together and integrate thru Science and Math.

From watercolors to pastels, mixed media, and more, they will be inspired to develop their creativity, stimulate their mind and put their own mark on their masterpieces.
